

# Cavalry™ Cover Pro

Drift Reduction Agent • Deposition Aid

## Principal Functioning Agents

Modified vegetable oil, refined soybean oil ..... 91.54%  
Constituents ineffective as a spray adjuvant ..... 8.46%  
Total ..... 100%  
All ingredients are exempt from tolerance under 40 CFR 180.

## Product Details

Cavalry™ Cover Pro is an NPE-free oil emulsion deposition and drift control agent specifically designed to reduce off-target drift of pesticide applications. Cavalry Cover Pro controls drift by improving droplet uniformity and increasing density. This allows more canopy penetration which can improve the performance of various pesticide applications.

## Application Directions

Add Cavalry Cover Pro to the spray tank after all other tank mix partners have been added. Avoid mixing with other undiluted products in an induction cone or any other container.

Ground: 3-4 oz/A

Aerial: 2-3 oz/A

\*Cavalry Cover Pro satisfies the requirement for a drift reducing adjuvant in an ESA drift mitigation calculation. Follow pesticide label directions for use rate.

## Key Features

- 1 Industry-leading drift and deposition agent.
- 2 Low 3 oz/A use rate is equivalent to industry standard of 4 oz.
- 3 Made with highly refined soybean oil for enhanced performance, storage stability and mixing.

## Package Size

2 x 2.5 gal | 265 gal
