

Cavalry™ ZoneLoc

Soil and Spray Deposition Agent

Principal Functioning Agents

Lubricating oils (petroleum), hydrotreated spent; oleic acid, polyethylene glycol undecyl ether	99.2%
Constituents ineffective as a spray adjuvant	0.8%
Total	100%

All ingredients are exempt from tolerance under 40 CFR 180.

Contains petroleum distillates.

Product Details

Cavalry™ ZoneLoc is a soil and spray deposition agent that improves the efficacy and adsorption of soil-applied herbicides, improves drift control and enhances application efficiency.

Application of soil-applied herbicides with Cavalry ZoneLoc will lay the foundation for effective pre-emergent weed control.

Application Directions

Use rates: 1-4 pt/A

Standard use rate: 1 pt/A

*Cavalry ZoneLoc satisfies the requirement for a drift reducing adjuvant in an ESA drift mitigation calculation. Follow pesticide label directions for use rate.

Key Features

- 1** Improves pre-emergent weed control.
- 2** Reduces evaporation and drift.
- 3** Keeps active ingredient in the weed kill-zone longer.

Package Size

2 x 2.5 gal | 275 gal
